

**Geology and Mining Unit,  
Directorate of Industry, Govt. of Uttarakhand,  
Vill. Bhopalpani, Raipur Thano Road,  
Dehradun.**

No. <sup>745</sup> /Tender/ Surveillance System/2016-17

Dated: <sup>15</sup> December 2016

**Corrigendum**

**Tender for Supply, Installation, Commissioning and Maintenance of CCTV Surveillance System, tracking), Automatic Number Plate Recognition (ANPR), Variable Message Signage solution (VMS), Weigh bridge And RFID Systems (for mineral vehicle) issued by this office letter No. 1703/Tender/ Surveillance System/2016-17 Dated 02.12-2016 was published in the news papers and uploaded on NIC and departmental website on 03.12.2016.**

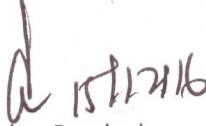

A pre-bid meeting was held at Geology and Mining Unit, Bhopalpani, Raipur-Thano Road Dehradun on 09/12/2016. Various queries received from vendors through email/phone were discussed with the representatives of OEMs. As per the discussion and feedback received from OEMs/Vendors and in lieu of requirement of Geology & Mining department, the committee has modified the architecture of mining surveillance system.

The architecture of mining surveillance system has been partially changed and thus the queries related to CCTV cameras and control room are no longer valid as CCTV cameras and control room are no longer part of the architecture.

In accordance, the tender document has also been modified. **The date for submission of bid has been extended to 19/12/2016 upto 5:00 PM. Technical bid will be opened on 20.12.2016 at 11:00 AM.**

It has been suggested by committee that an MIS for surveillance at Geology & Mining Unit, Bhopalpani shall be developed for data cross check/verification between RFID Tag, ANPR camera output, weigh bridge output and eRavanna.

In relation to the committee recommendation the Vendors are requested to review the architecture and modified tender document which is available on <http://dgm.uk.gov.in>.
